

Zionist Monsters 17-10-2023

How many Palestinian victims should Zionists shed their blood for global political decision makers to move. Arabs, urine analysts, Arab media analysts and Arab policy analysts observe their choice of words so as not to hurt the feelings of the Zionist army. They are even shamed to host Zionist leaders in their programs. What you're waiting for, God forbid, who's waiting for Iranian intervention or Hezbollah... we tell him to wait with the waiting. These will move only with the remoteness of control... the issue is crystal clear... an enemy who professes his hatred of you and an abhorrent West that despises Arabs.. and a window of opportunity to clear the Palestinian cause and displace the rest of the people... and to build the fictitious Kingdom of Zion... that will establish the greatest bloodshed of Muslims... The Palestinian issue will not be resolved by Arabs or Iranians. There are no Islamic groups of different names, hope for God's ability first and last, and move the Islamic peoples of Central Asia and the rest of the Islamic world. To put the crazy world before a new reality for the benefit of the Palestinian people... My Palestinian brothers are one comfort in martyrs... don't wait for anyone... you alone in the field of war... The world is against you and the Arabs are terrified.
...And only power
